

The logo for Intrepid Loader, featuring the word "INTREPID" in a bold, black, sans-serif font with a red triangle to the left of the "I". To the right of "INTREPID" is the word "LOADER" in a smaller, white, sans-serif font, enclosed in a red rectangular box.

# SAVE TIME & MONEY AND GO ARTICULATING

The Intrepid miniloader as offered by Miniloaders.com is manufactured by the Belgian manufacturer Knikmops, who have manufactured compact wheel-loaders for the western European market for more than two decades. Most of their machines go to paving companies

where they see long service lives under hard working conditions. The Intrepid KM100 Tele is ideally suited for companies in the green and hardscaping industry. We have experience in equipping and configuring these machines for tree care, landscape and other jobsites.
